Dixon, IL – The Illinois Department of Transportation announces today that weather permitting, construction work on South Main Street (IL Route 2) in Rockford will begin on Monday, April 7, 2014. William Charles Construction Company is starting the \$19.0 million project to reconstruct the 1.6 mile section of South Main Street from Cedar Street to Clifton Avenue.

Traffic will be restricted to one lane in each direction and drivers should be alert for flaggers who will be directing traffic. The project involves removing and replacing the entire roadway pavement including curbs, sidewalks, traffic signals, and new storm sewers. Due to the many construction operations, motorists should expect short delays when traveling through the area and should plan their trips accordingly.

Motorists are reminded to slow down and drive carefully through all construction zones.
